ABOUT CDIFF

The Contact Dance International Film Festival celebrates films featuring momentum-based dance created by some of the top creators and dancers in the field of contact dance improvisation. It provides a unique opportunity for both film and dance lovers to experience the joy, chaos and intimacy of human connection through physical movement. The Festival runs every two years on the odd years and presents its fourth season from June 29 to July 1, 2019.

Contact dance improvisation is a social dance involving touch, in which momentum between two or more people is used to create and inspire dance movements. The form is similar to martial arts practices such as Aikido that use momentum and rolling point of contact in defensive moves.

Film screening:

Blas Payri presents his short film *Mareta* – *Please Yes: a lullaby*. This piece revolves around the support from mother to daughter and daughter to mother, with the participation of real mother and daughter Béatrice and Jasmine Morand. The camera dances with the characters to reveal the moments of contact and mutual support, the separation and reuniting and the evolution in time of the relation. The soundtrack has been created using a Valencian traditional

lullaby, 'Mareta'
(‘Little mother’) that
sets the rhythm and
pulse of the piece
and the editing. Blas
Payri is the
filmmaker of this
piece.
